

24 lt. SCGX25HY

50 lt. SCGX50HY

This stainless steel foamer allows you to clean with dry foam without any connection to a compressed air line: the electric foamer has an integrated compressor.

Simple and practical, it plugs into the 220 V, thanks to its 10 m electric cable. Rugged, it is mounted on a stainless steel trolley with protective cover.

This system is particularly used in:

- agri-food, as for cleaning hoods and other kitchen elements

- for the cleaning and disinfection of sanitary installations, food industries, breeding ...

Allowed fluids : DETERGENTS
Not allowed fluids : SOLVENTS, EXPLOSIVE OR CORROSIVE FLUIDS
The electric foamer is not made for a continuous.

Features

	SCGX25HY	SCGX50HY
