

# Professional pneumatic sprayer

High-quality 10 litre pneumatic sprayer for professional cleaning and industrial applications.

**Typical Applications** Food Processing • Dairy • Meat Processing • Industrial Cleaning • Vehicle Wash • Sanitation • Workshops • Agriculture • Construction Equipment • Fleet Cleaning

## NBZ10X

**10 litre stainless steel pneumatic sprayer - PED 2014/68/EU**

A professional pneumatic sprayer for uniform detergent application. Fill to approximately three quarters of tank capacity and charge with compressed air up to 8 bar.

**Use note:** Always check detergent compatibility with the sprayer components before use.

<b>10 L</b> TANK CAPACITY	<b>8 bar</b> MAX PRESSURE	<b>10 m</b> HOSE LENGTH
<b>AISI 316L</b> STAINLESS STEEL	<b>8.5 kg</b> NET WEIGHT	<b>PED</b> 2014/68/EU

## KEY BENEFITS

<p><b>Professional Spray Application</b> Designed for uniform spraying in professional cleaning and spraying applications.</p>	
<p><b>Pneumatic Operation</b> Compressed-air operation and a 10 m hose support efficient work around vehicles, equipment and work areas. No continuous connection to the compressed air supply required.</p>	<p><b>Robust Stainless Steel Tank</b> Stainless steel tank with automatic level indicator for practical professional use.</p>
<p><b>Ready-to-use Spray Set</b> Supplied with LC-1 stainless steel lance, spray nozzle, nozzle protection and 10 m hose.</p>	<p><b>Made in Italy &amp; PED Compliance</b> Made in Italy in compliance with PED 2014/68/EU under TÜV Austria Italia surveillance.</p>

## TECHNICAL DATA

Feature	NBZ10
HS Code	8424.30.10
Material	Stainless Steel AISI 316L
Operation	Pneumatic
Capacity	10 litres
Maximum liquid capacity	9 litres
Spray lance length	600 mm
Hose length	10 m
Max pressure	8 bar
Net Weight	8.5 kg
Gross Weight	9.5 kg
Packing Dimensions	29 × 36 × H81 cm

## STANDARD EQUIPMENT

- 10 m hose
- LC-1 stainless steel lance
- Spray nozzle
- Nozzle protection

- Tank with automatic level indicator
- Safety valve set at 8 bar

## Optional Accessories

The NBZ10X can be configured with interchangeable nozzles for different spraying applications.

 <p><b>Interchangeable Spray Nozzle Set</b></p> <p>Interchangeable spray nozzles available in different diameters for different spray angles and flow rates.</p>	 <p><b>Plastic, Brass and Stainless Steel Nozzles</b></p> <p>Available in plastic, brass and stainless steel according to the application and chemical compatibility requirements.</p>
---	---

Other accessories and spare parts available upon request.

## OPERATION

Fill the tank with liquid to approximately three quarters of its capacity and charge it with compressed air up to a maximum pressure of 8 bar. Always check detergent compatibility with the sprayer components before use.

### SAFETY

**Do not use solvents, explosive or corrosive liquids. Only liquids with a flash point above 65 °C may be used.**

## COMPLIANCE & ORIGIN

Manufactured in Italy in compliance with the Pressure Equipment Directive (PED) 2014/68/EU. The equipment is manufactured under the surveillance of TÜV Austria Italia in accordance with Accredia requirements.
